THE NEW AMERICAN WATCH.

IN ORDER TO MEET THE REQUIRE-
MENTS OF GENTLEMEN who prefer a
thinner watch than those usually made by
us, we have lately issued a new style of watch
on the three quarter plate model, especially
designed for this purpose.

In establishing this new series, it has also
been our design to produce a watch in every
way superior to the best and highest priced
products of the most reputable of English
and Swiss watch manufacturers; and no la-
bor or expense has been spared to this end.
In all respects of fine and durable material,
of external and internal finish, accuracy of com-
pensation and adjustment, of mathematical re-
sults, and of practical results, our new three-
quarter plate watch challenges comparison
with any in the world.

LOCAL ITEMS.

The Wherry Man Outdone.

A half-deck, one mast sailboat, called the "Mirage," arrived at this port yesterday from Norfolk, Virginia, which place she left Monday, Sept. 3, having made the passage in eight days. Her "officers and crew" were Captain S. Dayton, her owner, a young man who having a mind for a pleasure trip to Newport, devised this novel method of accomplishing it. The boat not being provided with the conveniences for a stove, his supply of provisions for the "voyage" was laid in ready cooked, consisting of bread, corned beef, &c., with a supply of water in wash it down. His manner of sleeping was to lower his sail, "stop" it down, hang out his light, turn in, and to use his own expression, "let her roll." His sleeping accommodations consist of a blanket spread upon the bottom of the boat under deck, with a pillow for his head. He does not mention having made a harbor but once, which was at Greenport, east end of Long Island, Saturday, after the setting in of the violent northeaster which prevailed here: From there he got under weigh Sunday morning, and during the day the boat was knocked over by a squall, when 30 miles from land, filling it half full of water, and washing everything movable off the deck overboard, including his case. The whole distance sailed was about five hundred miles, and Captain Dayton estimates the sailing time of the voyage at seventy-five hours. The dimensions of the boat are, length 22 feet, breadth 9 feet. Capt. Dayton designs visiting Providence with his boat during his stay, and returning to Norfolk by way of Long Island Sound, thence by sea from Sandy Hook to the Cape of Virginia.

Real Estate Sale.

It is understood that the fine estate of De Lacy Kane, Esq., has been sold within a day or two for one hundred thousand dollars. The name of the purchaser, and, in fact, all positive information concerning this sale have been kept, thus far, scrupulously from the public eye, but *Malcolm Rumor* says that the purchaser is a wealthy New York merchant, a son of a family of the name of Kane, who has become possessors of this beautiful property. This estate is one of the finest in the vicinity of Newport; it is situated near the beach, and contains between sixteen and seventeen acres of land, highly improved and decorated with beautiful trees and shrubbery. The buildings are of brick and stone, and are built in the most substantial and costly manner. Those who know, say that the place has been sold at a great bargain, being only about \$6,000 an acre, which, considering the improvements, is thought to be a very low figure.

Beautiful Answer.

Yesterday, in the police court, a little bright-eyed boy was put upon the witness stand to testify, when the counsel of the party against whom he was expected to testify prayed the court to learn if the witness understood the nature of an oath, or in other words, if he was competent to take an oath. The court, in order to test the matter, asked the little boy how old he was. He replied, "eleven years old." The court then enquired: "If you swear falsely what will be the consequence?" "I should commit an awful sin against God."

VESSEL ASHORE.

From a letter from William M. Rose, Inspector of Customs on Block Island, to the Collector of this port, dated 10th inst., we learn that the sloop W. H. Dennis, Capt. Wheaton, from Boston and for Philadelphia, went ashore on the north side of that island Saturday P. M., and lays high up on the beach, apparently in good condition.

The Catastrophe on Lake Michigan.

The shocking disaster on Lake Michigan struck horror into thousands of hearts. The telegraph reports:
The intelligence of the loss of the steamer reached Milwaukee yesterday and spread like wildfire throughout the city. The telegraph office was thronged all day with the relatives and friends to those on board, many of whom were in tears, and the most intense anxiety and excitement was manifested in the countenances of all. In the first ward of that city, it is said, that there is scarcely a home or place of business which has not lost some inmate or employee. All the survivors unite in according to Capt. Jack Wilson, the commander, great praise for his bravery and daring throughout. He was foremost in confronting danger, and earnest for the safety of passengers. He was drowned within 100 feet of the shore. Nearly 100 persons arrived within 50 yards of the beach, but were swept back by the returning waves and lost. Up to 9 o'clock to-night only 21 bodies have been recovered, most of which are residents of Milwaukee.

THE SECOND MATE'S STATEMENT.

Mr. Berman, second mate, states that at half past two a squall struck the steamer; five minutes more saw the lights of a vessel on point off the port bow. I sung out hard-a-port. The vessel seemed to pay no attention to us, and struck just forward the paddle box on the starboard side, tearing off the wheel, and cutting through the guards into the cabin and hull. We were steering N. W. by W. a point to the windward. Our course at that time N. W. After the collision I went below to see what damage was done, and when I came back the vessel was gone.

THE SCHOONER CAPTAIN'S STATEMENT.

Capt. Hallett, of the schooner Augusta, states that when he first discovered the steamer's light, both red and bright, he supposed her to be from a quarter to half a mile distant, and steering to northeast. It was blowing very hard at the time. We kept our vessel on her course, east by south, until we saw a collision was probable, when we put the helm hard up, and struck the steamer two or three minutes afterwards just abaft the paddle box on the port side. The steamer kept on her course, the engine in full motion. He headed the Augusta around north, alongside the steamer; but they got separated in about a minute, when the Augusta fell in the trough of the sea. All the head gear, jibboom and stanchions were carried away. We took in sail, &c., and cleared away the anchor. Supposing the vessel would fill. After clearing the wreck up, the foresail succeeded in getting before the wind, and stood for the land. We lost sight of the steamer in five minutes after the collision. Gardner S. Hubbard, owner of the Lady Elgin, has libeled the schooner Augusta for \$42,000, and the vessel has been taken in charge by the United States Marshal. This will bring out a full investigation of the affair.

The body of Herbert Ingraham, member of the British Parliament, has been recognized and taken in charge by his friends. Up to this morning twenty-seven bodies have been recovered.

The Lady Elgin was a magnificent steamer, plying between Chicago and Lake Superior, but frequently made excursions to other points. Her elegance, and the ability and affability of Capt. Wilson, made her an extensive favorite, so that she had the best class of patronage. In the absence of an accurate list, it is estimated that the excursionists numbered 300, the regular passengers 50, and the crew 30, while but 98 are saved.

A barber in Hartford, keeps a rattlesnake and a red adder in his shop for the amusement of his customers. They are confined in a box, and for the edification of the company a rat or a mouse is occasionally put in, just to see how long he will live. The other day, while their snakeships were having a tussle with a rat, the glass over the box was accidentally broken, and the reptiles were set free. About twenty-five men were present, and as quick as the thing could be done—some of them well thinned for (unconformable) operations. Among those who showed the greatest agility, was the Chief of Police.

A stitch in the side, taken in time, may save nine spasms.

In Fair Haven, Mass., on Friday morning, 7th inst., Mrs. Mary Hathaway, wife of Mr. Samuel Hathaway, and daughter of Caleb Balcroft, Esq., late of South Kingston, R. I., aged 74 years.

We regret to record the death of Mrs. Mary Hathaway, wife of Mr. Samuel C. Hathaway of Fair Haven, Mass., which took place on Friday morning, 7th inst., after a short and painful illness. Mrs. Hathaway was eminently distinguished for her many Christian virtues and graces; the unwearied amiability which characterized all her intercourse with her many friends was singularly beautiful, and the quiet, patient smile that was always on her lips during the most painful suffering, seemed almost the dawning of another and better life. In her domestic relations she combined the energy and industry of an old-fashioned housekeeper with the kindness and charity of those who choose the better part. It is a rare privilege to know her best and loved her for the sake of herself to pay to her remains the last tribute of respect, and when the earth has closed over her, to remember her many Christian virtues and kind admonitions, and imitate her purity of thought and religious strength of character.

CAUTION TO MARRIED OR SINGLE LADIES.

On account of the deception used by pretenders to the sale of medicines for the use of females, it is requisite for ladies to use a caution in the purchase of them. Taking this view of the case, Dr. Cudworth, No. 3 Orange street, Providence R. I., offers his medicine to the public as the best ever used for females. His Drops and Pills for Suppression or Irregularities, are unsurpassed by any offered to the public. They have never failed in our single use, and can be warranted to perform perfect and permanent cures in the most obstinate cases. His medicines for all other complaints, also stand pre-eminent for their success in curing all who use them.

In the treatment of these complaints peculiar to females Dr. C. acknowledges an indebtedness to the skillful and judicious use of the medicine prepared from an Indian plant which has been used by the natives for the same purpose from time immemorial, and is now for the first time offered to the public. His medicine is known for the purpose, and is guaranteed IN ALL CASES, to the person who requires it.

POOR RICHARD'S EYE WATER.
Philadelphia, July 25, 1860.
For sixteen years I had sore and inflamed eyes and eyelids. My father and myself spent not less than two hundred and fifty dollars for a cure, but all in vain. Although we employed six of the best physicians in this city at different times, they used all the skill in their power, but to no purpose; so I was forced to give up the idea of all cures, and came out. We Wishart, at 66 South 1/2 Street, seeing my suffering, presented me with a bottle of Poor Richard's Eye Water, and I thank God that though I have not used two bottles, my eyes are all well and my face growing out rapidly.
